

Battle Cries

VERSE 1:

Dm

Countries often go to war, and hope they might accomplish more,

Dm

But broken lives left behind, never appear in a government's mind.

Am

Because of all your stupid reasons, this war could last for countless seasons

Am

You'll never hear the battle cries, or see the tears in a family's eyes.

CHORUS:

Dm G C

Can you hear the battle cries, over all your broken lies

Dm G C Am

We tried to tell you how we feel, but you said war is no big deal.

Dm G C

All the secrets and the lies, never showed behind your eyes,

Dm G C Am

The only thing you've ever done, is give each soldier a grenade and a gun.

VERSE 2:

Dm

I can't describe just how I feel, standing on this battlefield

Dm

Looking through this barbed wire fence, I hope in the end it all makes sense

Am

I have just one more thing to say, I hope this doesn't last another day

Am

Because the day that this war ends, our lives can begin again...

BRIDGE: (Instrumental Solo)

CHORUS (REPEATS...)
